

## Online Learning

Greetings future CARE-Ready Life Coach!

We are dedicated to your success and want to assure that you are prepared in every way for your online learning experience.

Please know that since this training is provided through online on-demand videos, and 1:1 video conferencing with the program instructors, we are not in control of internet services. Matters of bandwidth, internet speed and power outages are issues that are managed by your local or regional internet service. We will do all that we can to assure that our video courses and program instructors are available.

In order to successfully navigate and complete this course, there are some hardware and system requirements that will be necessary for you to meet:

- You must have a **computer, tablet or device** that gives you the ability to make appointments and interact with the instructors.
- You must be **able to access and view** Zoom Video Conferencing
- You must provide an email address and/or a text number to which we can send information and documents.
- You must be **able to open, download and print** PDF course files and/or Word documents. This course has over 80 pages of documents that will be part of the recorded sessions.
- You must be **able to edit documents** in order to complete your official life coaching **field manual**, pass the course, and obtain your certification.

After completing your online examination, you will be able to immediately print a temporary certificate. However, within two weeks, the official certification, with an official certification number, will be emailed to you as a pdf document that you can print out and frame.

We are very excited for you as you work to obtain your CARE-Ready Life Coaching® Certification!

All the best to you!
